

**Jeffries Technology Solutions  
Welcomes  
Stephen Marley, Ph.D., CEA**

**March 19, 2015**

**Herndon, Virginia**– Jeffries Technology Solutions, Inc. (JeTSI) is pleased to announce the addition of Dr. Stephen Marley to the JeTSI team.

Dr. Marley brings 25+ years of experience in both the international and United States space programs to the JeTSI team. His previous work leading architectural projects on a senior level for NASA, NOAA, Raytheon, and Harris Corporation has equipped him with the knowledge and expertise to effectively work with JeTSI clients and their ground system projects. Accomplishments include guiding the long-term strategy of Harris' Civil Ground System Business Area, leading the architectural and technology direction for Harris' Federal Climate / Weather Systems business, and as the Deputy Program Manager for NASA's Geosciences Interoperability Office (GIO).

JeTSI President, Alan Jeffries noted "Dr. Marley's in-depth understanding of the scientific and engineering aspects as well as the business side of environmental and weather services brings a unique combination of expertise to the JeTSI team." A member of the American Meteorological Society, Association of Enterprise Architects, American Geophysical Union, and the American Institute of Aeronautics and Astronautics, Dr. Marley also holds a doctorate in Infrared Astronomy.

"JeTSI continues to grow and has become a well rounded team with expertise in requirements, systems & enterprise architecture, DoDAF modeling, concept of operations, software & systems solutions, cost estimation & analysis, and program & technical team leadership," according to CEO, Leslie Jeffries.

JeTSI is a woman-owned engineering consulting firm specializing in the aerospace industry. It provides diverse services in systems engineering and architecture, program management, software development, and custom hardware solutions.
