

JeTSI AMS 2016

December 9, 2015

Herndon, Virginia– Jeffries Technology Solutions, Inc. (JeTSI) is pleased to announce that JeTSI team member Dr. Stephen Marley was selected to provide a presentation at the 12th Annual Symposium on New Generation Operational Environmental Satellite Systems during the American Meteorological Society's annual meeting to be held in New Orleans, Louisiana January 10-14, 2016.

Dr. Stephen Marley will present "O2R2O – A 21st Century Approach to the Operationalization of Weather Science" on Thursday, January 14.

This presentation will explore the application of new technologies for the operationalization of weather science. It will review the current practices within the NOAA/NESDIS enterprise and identify how emerging technologies might be integrated into a more flexible architecture that provides for the efficient integration of the latest weather science understanding into operational use.

The presentation slides will be posted on our website after the conference is held. You will be able to find them in the Published Papers link at www.jetsi.com.

JeTSI is a woman-owned engineering consulting firm specializing in the aerospace industry. It provides diverse services in systems engineering and architecture, program management, cost analysis & estimation, software development, and custom hardware solutions.
