JeTSI on INNOVIM Small Business Team for NOAA PROTECH-SATELLITE DOMAIN CONTRACT

Herndon, Virginia – Jeffries Technology Solutions, Inc. (JeTSI) is pleased to announce that we are on the small business [INNOVIM](#) Team selected by the National Oceanic and Atmospheric Administration (NOAA) for a Professional and Technical (ProTech) Satellite Domain contract award as part of a suite of multiple Indefinite Delivery, Indefinite Quantity (IDIQ) contracts.

JeTSI is looking forward to working with the INNOVIM team and NOAA in providing systems engineering and architecture services to manage the Nation's operational and environmental satellites of today and in the future. These satellites are used to forecast weather, analyze the environment and climate phenomena, and monitor hazardous conditions as well as provide proactive response and environmental intelligence. INNOVIM ProTech Team SOW Areas are listed in the team resource brochure.

JeTSI, founded in 2003, is a small, woman-owned business headquartered in Herndon, Virginia with a commitment to provide exceptional response and service to clients, a challenging and fun work environment, and mutually beneficial relationships within the space operations industry. As a trusted partner, we make it our mission to provide clients with responsive, resourceful, and reliable solutions to meet their program goals.
